“Shazam! Fury of the Gods” arrives with two strikes against it since it’s not only a studio-produced sequel but also a superhero movie made in 2023. One should expect a certain level of creative committee-mandated, Mad Libs-y monotony, regardless of how one feels about the surprisingly decent “Shazam!”. The makers of that fine-enough 2019 franchise-starter, including director David F. Sandberg, toned down both the Troma Lite cynicism and post-Spielberg sentimentality that’s come to define the lighthearted James Gunn-style super-projects that dominate the landscape. “Shazam! Fury of the Gods” meanders further in that direction. The first “Shazam!” works as well as it does because it’s mostly focused on two adolescent pipsqueaks, Billy Batson (Asher Angel) and Freddy Freeman (Jack Dylan Grazer), who get sucked into a generic fantasy, with some assistance from their extended family of orphan buddies. “Shazam! Fury of the Gods” mostly sticks to the comic book formula that the first movie poked fun at, despite another strong comedic performance from star Zachary Levi and some sporadic yuks throughout. It’s schtickier and less assured than the first “Shazam!” but these leftovers still reheat well enough.
